Dear Mr. Herazo:

I am writing this letter to express my gratitude for the help you provided, and also express my satisfaction with the representation we have received from A-1 Adjusters Associates on the recent insurance claims affecting our property. Specifically, A-1 Adjusters advised us that we were entitled to more than what we had originally believed our policies allowed, and showed us how to maximize what our policies covered. As a result we were able to resume normal business operations promptly, which minimized our business losses. In addition, we appreciate the attention that was given to our claim and our needs given the complexity and the time consuming details involved. The time I personally saved as a result of such fine representation was indeed a value without a price.

Sincerely,

Guillermo Godoy
