Dear Jose Herazo,

I am very happy to write a recommendation letter indicating how pleased the Company, and I are with the work of A-1 Adjusters Associates. Because our business is dependent on seasonal factors, and human safety any physical damage has the potential to cause substantial business and income loss.

A-1 Adjusters Associates gave consistent attention to our unique needs and timetables. In addition, A-1 Adjusters has provided expertise in insurance policies and a proficiency in business interruption, which helped us to receive the settlement that was necessary to get the rental property up and running. Let me just say thank you because the amount of the settlement A-1 Adjusters got for us was more than double the amount I had gotten in the past on other claims before using A-1 Adjusters.

I would like to thank you personally for all the time, and the attention you personally gave, and I gladly and highly recommend your services and expertise to other business in the community, and members of my family.

Thank you,

Yoiris Duran
